## HCA Healthcare political participation overview

HCA Healthcare participates in the political process to help educate policy makers, shape public policy, and address proposals and legislation that impact the patients and communities we serve. We are subject to extensive regulation at the federal, state, and local levels and are involved in a number of legislative initiatives across a broad spectrum of policy areas that can have a significant effect on the patients and communities we serve, our employees, and our business and operations. We ethically and constructively promote legislative and regulatory actions that further the objectives of HCA Healthcare, such as improving access and quality of care.

Government Relations employs a number of tools to educate policymakers, including direct lobbying, participation in trade associations and coalitions with other healthcare organizations, and political giving. These advocacy tools are conducted pursuant to our compliance protocols, consistent with our Company Code of Conduct, and in accordance with state and federal laws.

Our Company's [Code of Conduct](#) and Government Relations policies ([GR.001](#), [GR.002](#)) provide guidance to help ensure our work is done in an ethical and legal manner. Government Relations assesses HCA Healthcare's compliance needs, updates our policies as needed, and invests resources to ensure applicable standards are met. Additional information regarding the applicable provisions of the Company's Code of Conduct; our policies and procedures regarding political giving; and our PAC, lobbying, and trade association activities are set forth below.

Our political activities are also subject to oversight by our Board of Directors. The duties of our Nominating and Corporate Governance Committee (comprised solely of independent directors) pursuant to its written charter, include reviewing and considering the Company's policies and practices regarding political and public policy activities, including political contributions and lobbying.

### Lobbying activity

Federal, state, and local statutes and regulations (e.g., the Lobbying Disclosure Act and Honest Leadership and Open Government Act) govern our corporate lobbying activities and require the Company and its representatives to disclose relevant advocacy activity to the public and abide by applicable gift and ethics rules governing engagement with public officials and employees. Outside legal counsel prepares and files required reports for our in-house federal lobbyists. All lobbying reports for external federal lobbyists are reviewed and approved by HCA Healthcare's Senior Vice President of Government Relations. All federal lobbying reports filed by HCA Healthcare are publicly available at [lobbyingdisclosure.house.gov](https://lobbyingdisclosure.house.gov).

Lobbying reports for our state lobbyists are reviewed and approved by their Government Relations Director and filed in their respective states. State lobbying disclosure records are also generally available for public review via state government websites and online filing platforms managed by the state lobbying regulatory authority for each jurisdiction. Links to state lobbying reports filed by HCA Healthcare state lobbyists can be viewed online at [HCAhealthcare.com/LobbyingReports](https://HCAhealthcare.com/LobbyingReports).

## Trade associations and coalitions

HCA Healthcare supports trade associations and coalitions that represent a broad spectrum of views on industry and policy issues.

Lobbying and maintaining memberships in trade associations are important parts of participating effectively in the political process. We believe the associations in which we participate take positions and address policy issues in a collective industry manner and often advance positions consistent with HCA Healthcare's interests. However, participation in the political process and as a member of various trade associations comes with the understanding that we may not always agree with all of the positions of the organizations in which we participate, the other members of those organizations, and the stakeholders with whom those organizations communicate.

Below is a breakdown of dues paid by HCA Healthcare to federal trade associations, coalitions, and other tax-exempt organizations between Jan. 1, 2022 to June 30, 2022, and whose total dues exceed \$25,000. The total shown represents the amount that was allocated to non-deductible lobbying activity under the Internal Revenue Code.

Trade association / coalition	Non-deductible lobbying (Q1-Q2) 2022	Leadership representation

<b>Total – five federal trade associations and coalitions</b>	<b>\$645,000</b>

## Political contributions overview

HCA Healthcare sponsors a federal PAC – the HCA Good Government Fund – which is a voluntary, non-partisan, separate segregated fund (SSF), regulated by the Federal Election Commission (FEC). A Board of Directors, composed of HCA Healthcare employees, oversees the operations of the PAC, and works closely with the HCA Healthcare Legal Department and Internal Audit Department to assure our PAC processes adhere to applicable requirements. Our in-house PAC administrators attend yearly FEC conferences to learn of recent developments in campaign finance law and best practices for FEC filings and compliance.

HCA Healthcare’s political contributions and expenditures are made without regard to the personal political preferences of individual HCA Healthcare board members, officers, and employees. Decisions regarding political contributions are based on a number of factors, such as our belief that the recipient shares our commitment to improving access and providing quality healthcare to our patients.

Contributions to the HCA Good Government Fund are strictly voluntary. Disbursements from the PAC are made to election committees of federal office candidates and other PACs. Disbursements can also be made to state candidates or other state PACs where it is permitted and where HCA Healthcare does not operate an existing state PAC. Copies of monthly reports filed by the PAC with the FEC can be found at [www.fec.gov](http://www.fec.gov).

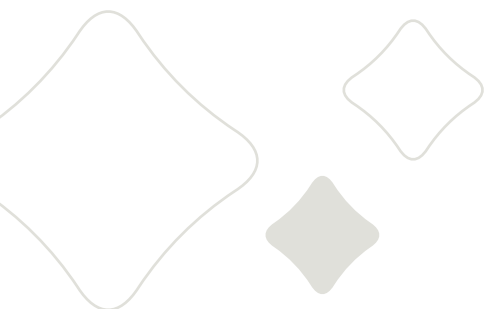

HCA Healthcare does not make independent expenditures for federal candidates or officials.

HCA Healthcare operates 16 individual state PACs in 14 states where we have healthcare operations. Each of these state PACs has its own board of directors and operates in accordance with applicable state law, but each PAC, whether federal or state, operates under uniform bylaws. Where permissible, the state PACs are funded by corporate dollars.

All disbursements, receipts, and reporting for HCA Healthcare’s federal and state PACs are managed through an enhanced PAC compliance, tracking, and reporting software system, which is designed to ensure that all contributions meet both federal and state compliance requirements and have the required authorization for approval.

HCA Healthcare’s affiliated PACs are also subject to review by the Internal Audit Department after each presidential election. These reports are shared with responsible Government Relations personnel and with HCA Healthcare’s senior management team.

A list of all federal and state PAC contributions made between Jan. 1, 2022 and June 30, 2022 by HCA Healthcare is included on the following pages.
