PURPOSE:

1. To ensure a standard requirement and process for obtaining and evaluating background information on:
 - a. Candidates for employment;
 - b. Individuals who provide clinical services at the Affiliated Employer (e.g., students), other than individuals who are solely privileged practitioners of the medical staff;
 - c. Individuals who provide clinical services under contract with the Affiliated Employer (e.g., independent contractors, employees or agents of staffing agencies);
 - d. Individuals who are reasonably expected to interact with patients or members of the public at the Affiliated Employer (e.g., volunteers); and

Such individuals are collectively referred to as “Other Contract Workers” and individually as “Other Contract Worker.”

2. **Ineligible Person:** An ineligible person is any individual or entity who is currently excluded, suspended, debarred, or otherwise ineligible to participate in federal health care programs; is currently excluded on a state exclusion list; or has been convicted of a criminal offense related to the provision of health care items or services and has not yet been excluded, debarred, or otherwise declared ineligible or has not been reinstated in federal health care programs after a period of exclusion, suspension, debarment, or ineligibility.
3. **Federal health care program:** Any plan or program that provides health benefits, whether directly, through insurance, or otherwise, which is funded directly, in whole or in part, by the U.S. Government or a state health care program (with the exception of the Federal Employees Health Benefits Program) (section 1128B[f] of the Social Security Act). 5. **HHS/OIG List of Excluded Individuals/Entities:** The Department of Health and Human Services' Office of Inspector General's (OIG) List of Excluded Individuals/Entities (the "OIG Sanction Report") provides information to health care providers, patients, and others regarding individuals and entities that are excluded from participation in Medicare, Medicaid, and other federal health care programs.

2. Prior to an acquisition that includes the employment of the seller's employees, the Employee Relations Center of Excellence (ER COE) will compare the seller's background investigation policy to this policy in the required due diligence process. The ER COE will make a recommendation to the Affiliated Employer expected to operate the newly acquired business based on that comparison. Without regard to the background investigation decision, all employees of the acquired business will be checked against the GSA List and OIG Sanction Report prior to the transaction close date to determine any match of an Ineligible Person. After the transaction close date, employees of the newly acquired business will be subject to new or updated background investigations in accordance with this policy.
3. Because background investigations depend upon the job description for minimum requirements, e.g., experience, prior to reducing or removing a job description's minimum requirements, the revised job description must be reassessed and approved by the Affiliate Employer's HR Vice President in consultation with the Compensation Center of Excellence.

REQUIREMENTS:

1. An Affiliated Employer may permit a Subject to begin employment or provide services in an Affiliated Employer's facility without initial confirmation of education. However, all other elements of the background investigation must be completed/verified before the Subject begins employment or provides services. A final determination on education will be made within a reasonable period of time after initial clearance to start work.
2. Subjects shall be provided with notice of the Affiliated Employer's policy and practice of conducting background investigations and, if required by state or local laws or regulations, a copy of this policy. A signed authorization for the procurement of a background investigation is required prior to initiating the background investigation. The authorization for the procurement of a background investigation should indicate the relationship of the Subject of the investigation and the Affiliated Employer.
3. Unless restricted by state or local laws and regulations, minors may sign, with or without the co-signature of a parent or guardian, an authorization for the procurement of a background investigation.
4. The Affiliated Employer that orders a background investigation for a Subject in compliance with this policy retains ownership of the report of the investigation. The signed authorization for procurement and the background investigation report will be filed in the Employee Record part of the "Approved List" or for applicants not employed, in a master verification file; reference the Employee Records policy.
